PURPOSE OF THE UNIT STANDARD

The purpose of this unit standard is to facilitate learning and to ensure that learners are able to cope with learning in the context of learnerships, skills programmes, and other learning programmes. Many adult learners in the FET band have not been in a learning situation for a long time, and need learning and study strategies and skills to enable successful progression.

Learners competent at this level will be able to deal with learning materials, to access and use useful resources, to seek clarification and help when necessary, and apply a range of learning strategies. They do this with an understanding of the features and processes of the workplace and occupations to which their learning programme refer.

- Access and use suitable learning resources
- Use learning strategies
- Manage occupational learning programme materials
- Conduct basic research, analyse and present findings
- Function in a team
- Reflect on how characteristics of the workplace and occupational context affect learning

LEARNING ASSUMED TO BE IN PLACE AND RECOGNITION OF PRIOR LEARNING

The credit calculation is based on the assumption that learners are already competent in terms of the full spectrum of language knowledge and communication skills laid down in the Revised National Curriculum Statements and unit standards up to NQF level 2.

UNIT STANDARD ACCREDITATION AND MODERATION OPTIONS

- This Unit Standard will be assessed by an assessor and moderated by a moderator, registered with the relevant accredited ETQA responsible for the quality assurance of this Unit Standard.
- Any institution offering learning that will enable achievement of this Unit Standard must be accredited as a provider through the appropriate quality assuring ETQA, or Learning Programme approval with an ETQA that has a Memorandum of Understanding with the quality assuring ETQA.
- Verification (external moderation) of assessment and moderation by the provider, will be conducted by the relevant quality assuring ETQA according to the moderation guidelines in the relevant Qualification and the agreed ETQA policy and procedures.
- An individual wishing to be assessed through RPL against this Unit Standard, may apply to an assessment agency or provider institution accredited by the relevant quality assuring ETQA, or by an ETQA that has a formal agreement/accreditation with the relevant quality assuring ETQA.

UNIT STANDARD ESSENTIAL EMBEDDED KNOWLEDGE

The essential embedded knowledge will be assessed through assessment of the specific outcomes in terms of assessment criteria.

Learners can understand and explain that language has certain features and conventions, which can be managed for learning purposes. Learners are aware that there are skills, strategies and resources, which will facilitate learning. They are familiar with the workplace context in which their learning will be applied.

Learners are unlikely to achieve all the specific outcomes to the standards described in the assessment criteria without knowledge of the listed embedded knowledge. This means that for the most part, the possession or lack of the knowledge can be directly inferred from the quality of the learner's performance. Where direct assessment of knowledge is required, assessment criteria have been included in the body of the unit standard. The following embedded knowledge should be taken into consideration: the

ability to interpret maps, take notes, the ability to read/viewed texts, appropriate communication skills and the location of learning resources.
